

## **`CIA Bureau Awards Working Group**

### **Recommendations to the CIA Bureau**

The Awards WG is a temporary WG, set up by the CIA Bureau to review and make recommendations on matters related to criteria and processes for CIA awards as defined in the FAI and CIA regulations. The WG was also instructed to study the historical implications of changing the criteria.

1. **Motion by the UK** to change Bylaws 7.2.1.3.4 to the effect that a person could receive a Montgolfier Diploma more than once for a sporting performance in the same category (Gas, Hot air or Rozière). The motion was temporary withdrawn and the Awards WG was given the task to study the implications of the motion.

#### **WG Recommendation**

The WG recommend no change to the rule 7.2.1.3.4.

With the present rules three diplomas are available for performance each year. For repeated high performances in one category, the diploma for contribution is also available.

Historically the rule has been enforced for many years but great care must be taken to ensure that the diploma is not awarded for a second best performance.

It is difficult to evaluate performances even in the same category. The effort behind a performance depend on many variables. Experience, resources, equipment and so on. We do not think it is fair that one person with unlimited resources can get the diploma more than once. This would dilute the value of the diploma.

## **2. FAI regulations. Statutes and Bylaws**

### **2.1 Nomination deadlines**

**The Awards WG recommend** that the rules for deadlines in the By-laws remain as they are.

The problem in 2012 was caused by confusion at the FAI head office as the new versions of the Statutes and By-laws were put in force at different dates.

The current deadlines are well known among delegates and work well together with the procedures used by the CIA Secretary. Reminders about the CIA awards are published in the CIA autumn newsletter and repeated well before the 60 day deadline.

A further complication is that the current rules for nomination deadlines are found in FAI By-laws chapter 7.1. Those rules are common to all FAI Air Sport Commissions and are therefore subject to consensus among all ASC. It may be difficult to get approval from all ASC's.

### **2.2 General rules**

**The Awards WG recommend that:**

Rules and procedures for nomination by the CIA be added to the By-laws chapter 7.

Rules for Nomination and approval, similar to rules for Montgolfier Diplomas, 7.2.1.3 are added to the rules for S-D Gold Airship medal as paragraphs 7.2.2.3.

(See appendix, version 2)

## 2.3 CIA nominations

**The Awards WG recommend** that the following text is added as paragraphs 7.2.1.3.5 and 7.2.2.3.5 or added to a set of rules common to both awards:

After the 60 days deadline specified in 7.1.2, **if no nominations for a specific award category has been received and**, subject to support according to FAI Statutes 9.1.3.2, nominations may be made by the FAI Ballooning Commission President. Such a nomination, with a citation, shall be included in the agenda for the commission meeting and shall be sent to the FAI head office.

## 2.4 Deferring decision

The nominations for performance have a “best before date” as they are for the best performance during the previous Montgolfier year. If a nomination is not made within the time limit, such a performance is “lost” for award purposes. In the past (before 1995) there was a possibility to defer (postpone) a decision for one year. Now that rule is deleted from the FAI Statutes.

Actually, there is no rule in the FAI Statutes against deferring a decision.

The problem is the text in the FAI By-laws about performance awards. They say that the awards are for the best performance in the previous Montgolfier year. In case a nomination, for some reason, is rejected and there is no other nomination for that award, then that award for that year is lost and the pilot in question may be an innocent victim of bureaucracy.

### **Recommendation:**

Add in the FAI By-laws under rules for Nomination and Approval the following text:

Under extenuating circumstances the Plenary may defer the decision for one year.

## 3. CIA Badges

**The Awards WG recommend** that the rules in SC 1, chapter 8, remain as they are.

The rules have worked well since the revision made 2008

For historical reasons it is important that rules of this kind remain unchanged unless there are any major shortcomings. Changes to rules and procedures may affect badges already awarded unless great care is exercised. The Awards WG has not found any reasons for a change or addition.

It would be nice to have a diploma to send to the badge holders. The CIA had a diploma but now seems to be out of stock. Lindsay Muir, badge administrator, has made a design proposal and her contacts with FAI head office indicate that we may use the general FAI diploma with our own text. See attachment.

## 4. CIA Awards Screening WG

It has been suggested to consider setting up a permanent CIA Awards Screening WG with the mission to screen all CIA Awards and Sporting Badge nominations in order to only present acceptable nominations for approval to the CIA Plenary, and to write the Terms of Reference for the CIA Awards Screening WG.

**Recommendation.** It is the opinion of this temporary WG that any kind of censoring of nominations, proposals or motions is contrary to the philosophy FAI Statutes, By-laws and

the CIA Internal regulations. Any proposal, made within the applicable time limits, following the appropriate procedures and published in the agenda should be openly discussed at the plenary.

It is important that awards for performance are given for the best performance during the previous year but it is sometimes difficult to compare performances in different categories.

It is also important that all award achievements meet a standard that is comparable to awards given in the past.

The plenary chairman could, before voting on awards, remind the plenary about the importance of careful consideration before voting.

An Awards evaluation WG, could be set up to evaluate nominations in this respect and report about the merits and make a historical comparison. But the mission of this WG should not be to deny nominations to be introduced to the plenary.

1. Awards WG proposed changes to FAI By-laws version 1

This version contain proposed changes to chapter 7 of the By-Laws and also additions to the rules for the Santos-Dumont medal to bring those rules in conformity with the rules for the Montgolfier Diploma. Statutes chapter 9 is included for reference, but no changes are proposed.

In this version all changes and additions are marked red for identification.

2. Awards WG proposed changes to FAI By-laws version 2

This version is identical to version 1 but all rules that are common for both awards have been moved to a separate sub chapter. This will reduce the amount of text. Changes are not highlighted, so to identify the changes, please see version 1.

The Awards WG recommend that version 2 shall be the adopted version.
