description : (please print)

Bengt-Olof Samuelsson, through his ability to lead and organize the aeromodelling business and particularly control line has been a great asset to the Swedish aeromodelling community and during

his period in CIAM, first as delegate and then as the subcommittee chairman, has worked to push CIAM and F2 control line forward. Bengt-Olof has been a mentor to many on the board since the early 80's and in the 30 years we worked together, he has done a lot for the development of the administration of the Swedish aeromodelling community. For several world championships, he has been involved in the management and supported by his knowledge in organizing, both radio and control line. Bengt-Olof have his views and he is not afraid to express them in a way that everyone involved clearly can see his meaning; he is not always right, but he has an opinion.
