

Report from FAI GC in Rotterdam

FAI HO propose a FAI Air Games Event Series as a part of the Sports- and Branding Strategy.

This should be a multi air sport event on a high level to attract public and sponsors to gain money for FAI in general.

Roadmap: 2016 product definition, Marketing plan, small test event, offering high profile events. Attention: high costs.

In 2017, concept of Air Games series with continental test events should be ready. World Games could be worked as „proof of concept“. High invest.

2018

WAG, refunds to NAC/ASC if possible

The GC confirmed the strategic plan and approved the budget as presented

Proposed Statute changes:

Instead of permanent Subcommittees now permanent Committiees

Nile Gold Medal should be deald in the Aviation and Space commission.

Clarification of the resposibility of Amateur built and Experimental Aircraft Commission for: amateur, home build, and experimental and restoration of vintage aircraft.

Problems and questions noted in Commission reports:

CIVIL: Problems with FAI License (no charge, high charge, refused issuing, taken back

CIAM: who own intellectual property of FAI sporting activities?

Working group to create giudelines on the responsibility of NACs when sporting power is delegatied.

CIMA: lazines of NACs nominate teams in reasonable time befor championships.

Problem with small medalls for teams. SL refused to issue by Belgium NAC. Request for wiser selection of delegates, because some countrys representatives never show up, nor giving input by writing or responding to our requests.

Organiser Agreement: more focussed on FAI, Commission only side partner. Better text. easier to understand.

Nächste GC: Bali, 2017 still open, 2018: Kapstadt

Anti-Doping

Goal: out of comp-test only in training events. In-competition test will continue,
