

## Ballooning Report Spain 2011

The best in the year 2011 was that we were able to organize the European championship in Lerida, Although big problems with sponsors , who doesn't, t wanted to pay what they promised to the organizers. Weather was good and we think pilots were happy , because they also understood the effort that the organization did, to go on with this event.

Everything this year was less than others before:

Events: Instead 5 or 6 , we did only 2, the Catalonian championship and the national + the European of course.

New pilots : only 5

Instructors: 3 times less than 5 years ago

Balloons in Spain: 20% less, many companies are disappearing or have big problems to survive.

We hope a better report for 2012

Report from Spain, Thank you very much,
